

# WEEKLY UPDATE

## USH 51 PORTAGE

6/7/21

Last week storm sewer installation continued and is on-going this week along with preparations for work on the canal pipe. The new canal pipe will be over 13' wide and 9' tall. The section of Wisconsin Street from West Edgewater to Ontario Street will be in its current traffic configuration for the remainder of the week. On June 14th, the canal pipe replacement will require a full closure of Wisconsin Street at the canal. The roadway will remain open to local traffic except for the canal crossing and immediate area. This closure will only be for two weeks.

A signed detour is marked for USH 51/16 traffic as well as the Ice Age Trail.
